JHON JAIRO QUITIAN MONTOKA

JUNIOR BACKEND DEVELOPER

ABOUT ME

I am a proactive person, I like to learn by myself watching videos and doing courses, besides creating projects by myself.

I like to listen to music while jogging, also watch series, movies or read books about detective research.

EXPERIENCE

UNIVERSIDAD DE ANTIOQUIA

Development

- I created a section called content evaluation to evaluate integrate projects where it allows teachers and students to evaluate it.
- I helped create new tables for new features.

PROJECTS

[DOJO APP](#)

- App that allows the creation of courses taught by a teacher to a student.

[ORDER PICKER](#)

- App that allows you to manage orders where you can create products and deliveries of ordered products.
